## TOWN OF HOLBROOK PUBLIC WORKS DEPARTMENT HYDRANT FLUSHING

The Holbrook Public Works Department will conduct a hydrant flushing program during the week of April 11<sup>th</sup> through April 15<sup>th</sup>, 2016. The majority of the work will be done between the hours of 9:00 p.m. and 3:00 a.m. The activity will cause discolored water in varying degrees in all sections of town. Persons who experience water discoloration should clear their water systems by opening the cold water faucet for several minutes and then wait about an hour. If the water still is not clear, they should repeat the flushing procedure.

The Public Works Department cannot be responsible for any damages incurred as a result of the activity which is a necessary and normal maintenance function of our water distribution system. Should further information be desired, please call 781-767-1800 between the hours of 8:00 a.m. and 4:00 p.m.

Benjamin F. Ecord, Superintendent  
Holbrook Public Works Department
