Re: **Aerial Larval Control Application**

Please be advised that the Norfolk County Mosquito Control District will be conducting aerial larval control helicopter applications for 2 to 3 days; sometime between April 14 and April 30, 2014. These applications are not 'sprays', but instead are granular applications of a biological larvicide applied to wetlands only. As always, the weather in the spring is unpredictable, and for this reason the District cannot pin down these dates with any more accuracy at this time. As the time approaches, the District will narrow down application dates, and will notify you via e-mail, fax or phone.

Please inform your local public safety departments of this scheduled application. The District will call, each morning, those public safety departments in whose towns the application will be taking place.

We receive very few complaints from residents regarding these applications. Many residents who live near the wetlands we treat are familiar with the application. Nevertheless a general notification to the public is appropriate (Webpage, newspapers, cable). We believe that Reverse 911 and Code Red messaging is unnecessary.

Thank you for your assistance.

Re: Notice of Aerial Larval Control Application

In accordance with 333 CMR 13.04 (7) (a & b), please consider this as notification of the pending aerial application targeting mosquito larvae in the wetlands in the District.

The Norfolk County Mosquito Control District will be conducting helicopter applications of the biorational larvicide Bti (*Bacillus thuringiensis israelensis*) to control mosquito larvae. These applications will be conducted over specific large wetlands in the Towns of:

**Avon/Bellingham/Braintree/Canton/Dedham/Dover/Foxboro/Franklin/Holbrook
 Medfield/Medway/Millis/Milton/Needham/Norfolk/Norwood/Plainville/Quincy
 Randolph/Sharon/Stoughton/Walpole/Westwood/Weymouth/Wrentham.**

These applications will be conducted for 2 to 3 days, anytime between April 14, 2014 and April 30, 2014. ***As always, the weather in the spring is unpredictable. For this reason the District cannot pin down actual application dates with any more accuracy at this time.***

The trade name of the granular formulations of Bti to be used is VectoBac G (EPA Reg. #73049-10). For further information contact David A. Lawson, Director at (781) 762-3681 or the Boards of Health in the towns listed above. Information is also available on line at www.norfolkcountymosquito.org
