June 5, 2025

Dear Resident,

Construction of the new stand pipe is now complete and the process of finishing the project comes to the demolition of the old tank. This demolition will commence during the week of June 9, 2025 and will take about 5 weeks with projected hours of work from 7:00 am to 3:00 pm. The process for demolition will be to cut the old steel tank into smaller pieces and allowing those smaller pieces to drop into the center of the tank. This is a typical method of dismantling structures of this type. There will be some fairly loud banging as the smaller pieces drop into the center of the tank base. There is no cause for alarm, this is part of the process.

If you have any questions or concerns please feel free to contact the Holbrook Department of Public Works at 781 767-1800 or email publicworks@holbrookmassachusetts.us.

Thank You,

Bob McCue
